Fyi. You don't really need to look at the whole proposal, but just pointing out that on the last couple pages they attached a comment letter from the Mayor of Rancho Palos Verdes who seems to want to treat PV Shelf and the ocean dumping issue as very much related. I will also be addressing that with the Mayor during Tuesday's briefing to the City.

Mr. Chesnutt,

We thought you might want to see the resolution, the special study proposal and the comment letter we received concerning the special study. They are attached as one pdf file. Please let me know if you would like me to send anything else. The agenda for the meeting is available from the web page link in my previous email.

Cris

Subject: Los Angeles Water Board Meeting next week

Mr. Chesnutt,

My name is Cris Morris and I am a Section Chief at the Los Angeles Water Board. At our Board Meeting next Thursday (5/13) we have an item (No. 11) for the Los Angeles County Sanitation District to present their Special Study Proposal for the Joint Outfall System. Since part of this Special Study involves the Palos Verdes Shelf superfund site, we would very much appreciate it if you could virtually attend this meeting in case any of the Board Members have questions regarding the Palos Verdes Shelf superfund site. We also anticipate that they may have questions concerning the DDT Ocean Dumping and that you would be the best person to be able to answer those questions as well.

Could you please let us know whether you will be able to attend? I am hoping that this item No. 11 will be right before lunch, but I can't anticipate how long each of the previous items will take. If you are able to make it, please sign up to be a potential speaker via the link below.

[Remote Meeting | Los Angeles Regional Water Quality Control Board \(ca.gov\)](#)

If you have any questions, please let me know.

Regards,

Cris Morris, PE, PMP
Watershed Regulatory Section Chief
Regional Water Quality Control Board
